Selling and plan 24-28

START HERE

# Your Path in 3 Pillars

One calm, visual path from your first bead to your first paid order.

1

## Best-seller radar

Start with pieces people already love to buy

2

## Visual step by step

Charts and stitches explained simply

3

## Your first paid order

Price, photograph and present your work

## How to use this guide

1. Read pages 3 to 9 once.
2. Stitch the first bracelet.
3. Pick one pattern from the bonus.
4. Use the price page before you list anything.

Prices and results in this guide are examples, not promises.

WHY IT SELLS

# Why Delicate Bead Jewelry Sells

## 1 Giftable

Small, personal and easy to wrap.

## 2 Personal

Colors can match a person or an outfit.

## 3 Low material cost

A few grams of beads make a piece.

## 4 Short sessions

You can finish pieces in an evening.

## 5 Easy to ship

Light and flat in a small envelope or box.

**Tip:** start with simple pieces, then add complexity as your speed grows.

TOOLKIT

# The Starter Kit

## Core tools

Beading needles
size 10 to 12

Beading thread
(nylon or fused braided)

Small sharp scissors

Bead mat or shallow dish

Flat-nose pliers

Bead stoppers or tape

## Starter

— about $30 —

- Needles and thread
- 4 colors of seed beads
- Scissors and a dish

## Standard

— about $60 —

- Adds clasps and jump rings
- Pliers
- A bead mat

## Pro

— about $100 —

- Adds more colors
- A bead loom
- Crimping pliers

*Budgets are examples. Prices change, so check before you order.*

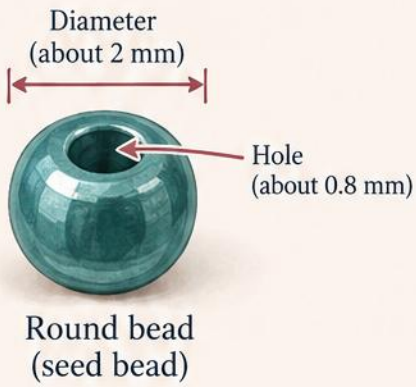

BEADS

# Know Your Beads

| Bead type | Size | Shape | Best for |
|---|---|---|---|
| **Delica 11/0**  | 1.6 mm wide and 1.3 mm long | Cylinder | Flat woven pieces and charts |
| **Round seed bead 11/0**  | About 2 mm | Round | Texture and fringe |
| **Round seed bead 15/0**  | About 1.5 mm | Round | Fine detail |
| **Round seed bead 8/0**  | About 3 mm | Round | Easy beginner pieces |

Cylinder bead
(Delica 11/0)

Round bead
(seed bead)

**Typical Delica 11/0 specs:**
hole about 0.8 mm;
about 1,440 beads in a 7.2 g tube.

*Sizes are approximate. Always check the label.*

BEADS

# How Many Beads Do You Need?

1. Beads in the chart = **columns** x **rows**
2. Delica 11/0: about **175 to 200** beads per gram
3. Add **10%** extra for mistakes

## A Loom bracelet, 7 inches

11 columns x 112 rows
= **1,232** beads

about **6.2 to 7 g**

## B Drop earrings, pair

7 columns x 26 rows x 2
= **364** beads

about **2 g**

**Write the bead count of every color before you shop.**

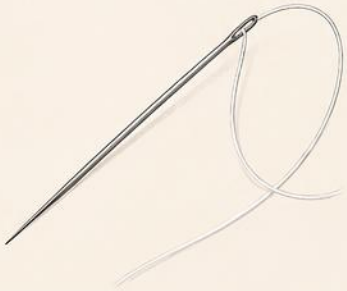

SETUP

# Thread, Needle and Tension

1. Cut about 3 feet of thread

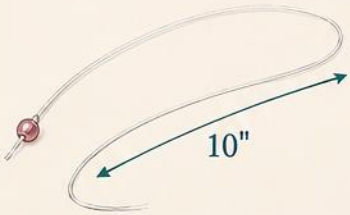

2. Thread the needle

3. Add a stop bead

4. Leave about a 10 inch tail

5. Pass through the top of each bead

6. Keep tension snug, not tight.

## Choosing thread

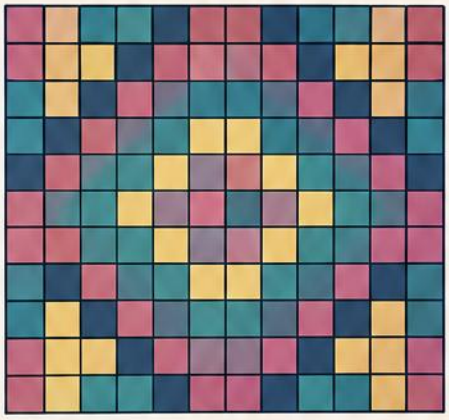

- nylon beading thread is soft and flexible
- fused braided line is strong and does not stretch
- match thread color to your beads.

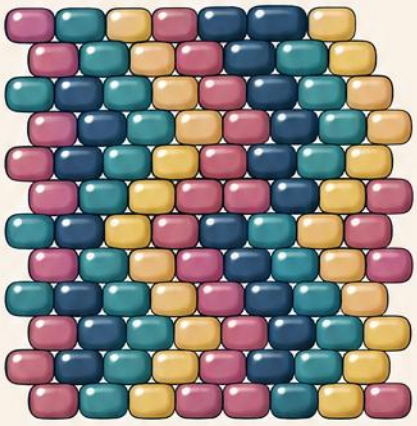

CHARTS

# How to Read a Bead Chart

**Loom / Square Stitch**
(straight grid)

**Peyote Stitch**
(offset columns)

A B C D

1. Row 1 is at the bottom, work upward
2. Letters match the color key
3. Loom and square stitch are a straight grid
4. In peyote, count rows on the diagonal

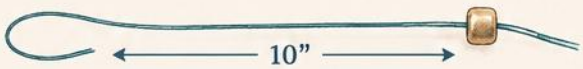

**Tip:** tick each row on a printed chart as you finish it.

STITCH · PEYOTE 1

# Even-Count Peyote: Setup

Peyote makes a flat, fabric-like strip.

1. Attach a stop bead about 10 inches from the end.

2. String an even number of beads, for example 6.

3. Slide them to the stop bead.

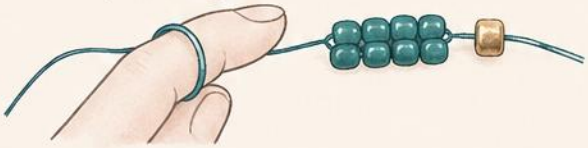

4. These beads are rows 1 and 2.

5. The first bead strung is the first bead of row 2.

6. Hold the thread snug around your finger.

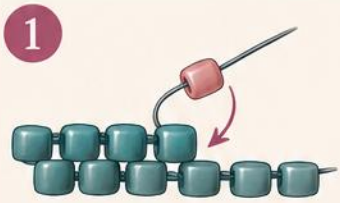

**Tip:** slip an unthreaded needle through every other bead to keep the first rows in place.

STITCH · PEYOTE 2

# Peyote: Row 3 and Beyond

String 1 bead, skip 1 bead, pass through the next.

1

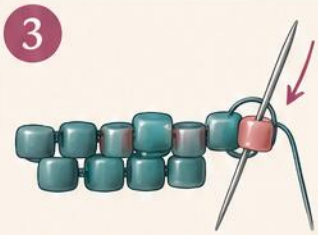

String 1 bead.

2

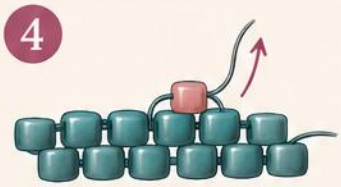

Skip the last bead of the strand.

3

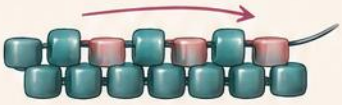

Pass the needle through the next bead.

4

Pull snug so the new bead sits on top.

5

Repeat across the row.

6

Start every new row the same way.

## Good to know

- Each stitch goes through an up bead from the row below.
- Count rows by counting beads along the diagonal.
- To finish, weave the thread back through a few rows and trim.

STITCH · LADDER

# Ladder Stitch: The Base Row

A ladder is a row of side-by-side beads, often the base for brick stitch.

**1**

Pick up 2 beads and slide them to the middle of the thread.

**2**

Pass through both again so they sit side by side.

**3**

Pick up 1 bead.

**4**

Go back through the last bead.

**5**

Go through the new bead.

**6**

Pull snug after every bead.

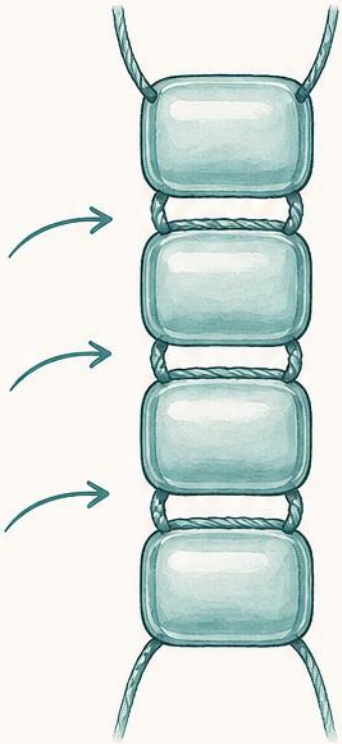

Keep the thread exiting from the top of the last bead.

STITCH · BRICK

# Brick Stitch: Your First Row

Brick stitch builds on the thread bridges of the row below.

A **thread bridge** is the short loop of thread between two beads in the row below.

1. Pick up 2 beads
2. Go under the bridge between base beads 1 and 2, back to front
3. Pull through
4. Go back up through the second bead
5. Add single beads, each under the next bridge
6. At the end of a row, go through the last bead and turn

STITCH · SQUARE

# Square Stitch

Beads line up in a straight grid, just like a chart.

1

Add a stop bead and string the first row.

2

Pick up 1 bead for row 2.

3

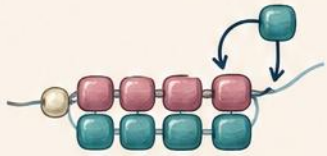

Go back through the last bead of row 1.

4

Go back through the new bead.

5

Add the next bead and attach it to the bead below.

6

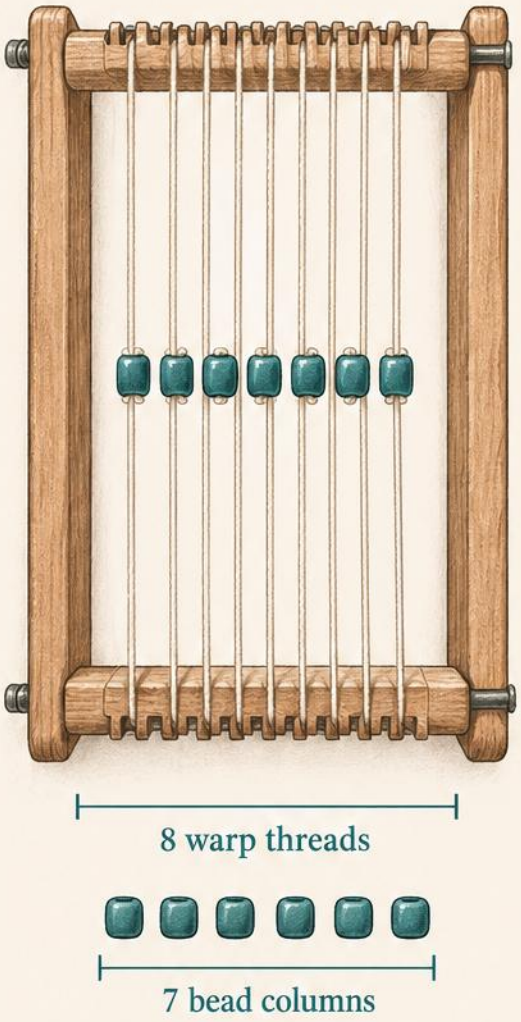

Flip the work and repeat.

★ | Tip: make a one-color practice strip first.

STITCH · LOOM 1

# Bead Loom: Setting Up

1. Count your bead columns.
2. Use columns plus 1 warp threads.
3. Example: 7 columns need 8 threads.
4. Space the threads evenly on the loom.
5. Tie the weft thread to the outer warp.
6. Leave a tail of about 3 to 6 inches.

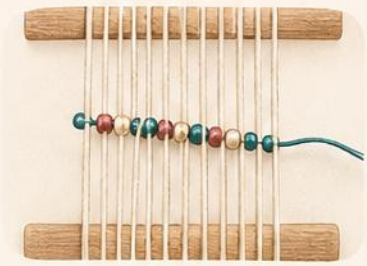

**Why plus 1?**
Every bead sits between two warp threads.

# Bead Loom: Weaving and Finishing

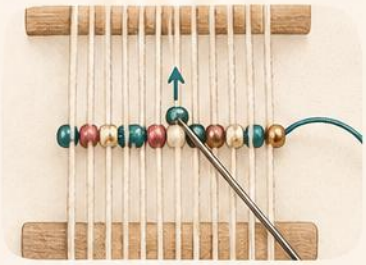

1. Pick up the beads for one row on the weft.

2. Slide them under the warp threads.

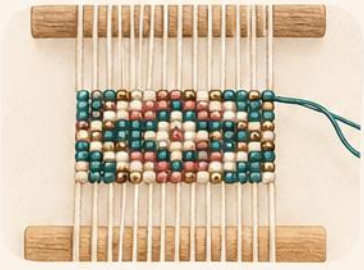

3. Press one bead up between each pair of threads.

4. Pass the needle back through the beads, over the warp threads.

5. Repeat row by row.

6. Finish your piece.

## Finishing options

- knot and trim (simplest);
- weave the ends back into the beadwork;
- add a leather or suede end tab, or a clasp with an extension chain.

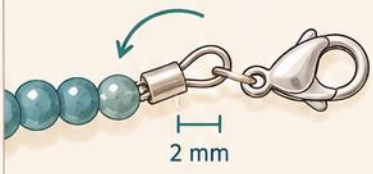

FINISHING

# Attaching a Clasp with Crimps

1. Slide a crimp tube and one clasp half onto the wire.

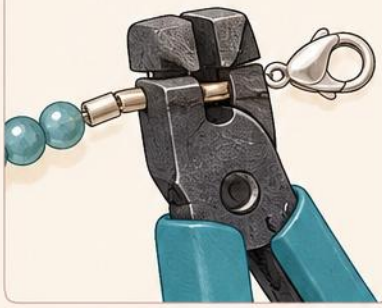

2. Pass the wire back through the crimp tube, leaving a small loop of about 2 mm.

3. Squeeze the crimp in the first notch of crimping pliers.

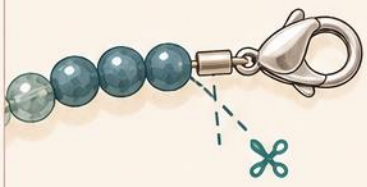

4. Fold it in the second notch.

5. Before the final crimp, pull the tail so only a little slack remains.

6. Run the tail back through 2 or 3 beads and trim.

**To open a jump ring, twist it sideways, never pull it apart.**

SIZING

# Bracelet and Necklace Sizing

## Bracelet length

| Wrist | Bracelet |
|---|---|
| 5 to 5.5 in | 5.5 in |
| 5.6 to 6 in | 6 in |
| 6.1 to 6.5 in | 6.5 in |
| 6.6 to 7 in | 7 in |
| 7.1 to 7.5 in | 7.5 in |

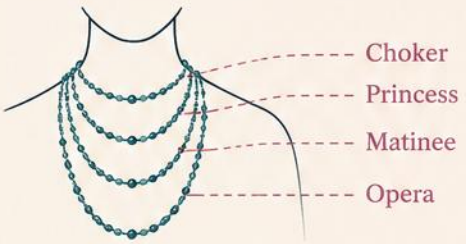

**Fit allowance on your wrist measure:**

- snug +1/4 to 1/2 in
- comfortable +3/4 to 1 in
- loose +1 1/4 in.

Between two sizes, choose the larger.

## Necklace length

| Style | Length |
|---|---|
| Choker | 14 to 16 in |
| Princess | 17 to 19 in |
| Matinee | 20 to 24 in |
| Opera | 28 to 36 in |

Measure with a soft tape. Necklace lengths include the clasp.

YOUR FIRST PIECE

# Your First Bracelet

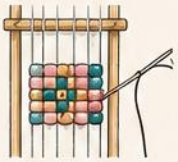

A loom bracelet is the fastest way to a finished piece.

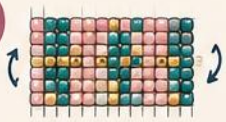

1. 
Choose a chart from the 50 patterns bonus.

2. 
Count the beads of each color.

3. 

Set up the loom with columns plus 1 threads.

4. 
Weave row by row from row 1.

5. 
Repeat the chart until the length fits your wrist.

6. 
Finish and add a clasp.

**Aim for one finished piece before you buy more beads.**

YOUR FIRST PIECE

# Drop Earrings in 5 Steps

**1**

Slide beads onto a head pin.

**2**

Leave about 3/8 inch of wire above the last bead.

**3**

Bend it to a right angle and trim to about 1/4 inch.

**4**

Roll a loop with round-nose pliers.

**5**

Open the ear wire loop sideways and attach.

## Make a matching pair

- Count the beads on the first earring.
- Write the count down.
- Compare both lengths.

COLOR

# Palettes That Sell

Choose 3 to 4 colors and repeat them.

Blush and Gold

Sage Garden

Ocean Teal

Sunset Coral

Lavender Haze

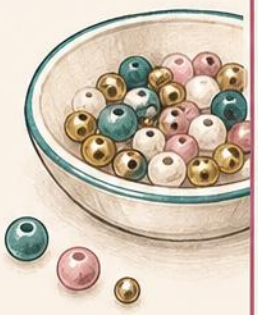

Pearl and Rose

**Tip:** one dark, one light, one accent keeps designs balanced.

PRICING

# Price It With Confidence

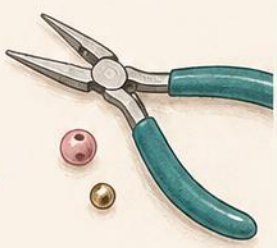

$$\text{Price} = \frac{\text{materials + your time + packaging + fixed fees}}{1 - \text{fee \%} - \text{profit \%}}$$

## Stretch bracelet, 30 minutes

| | |
|---|---|
| Materials | $1.60 |
| Time | 0.5 h x $15 = $7.50 |
| Packaging | $0.60 |
| Fixed fees | $0.45 |
| Fee % | 9.5 |
| Profit goal | 20% |
| **Price** | **about $14.40, list at $14.99** |

*Example numbers only. Complex pieces take longer, so raise the price or simplify the design.*

PRICING

# Marketplace Fees Explained

If you sell on Etsy, these are the main US fees reported in 2026.

| | |
|---|---|
|  **Listing fee** | $0.20 per listing |
|  **Transaction fee** | 6.5% of item price plus shipping |
|  **Payment processing** | 3% plus $0.25 per order |
|  **Offsite Ads** | optional, 15% on attributed sales for small shops. |

Fees change. Check Etsy's official fee page before you price.

# Photos and Packaging

1. 
   Hero shot on a clean background.
2. 
   Close-up of the stitching.
3. 
   Scale shot on a wrist.
4. 
   Clasp detail.
5. 
   Packaging flat lay.

## Packaging basics

- Small kraft box or organza pouch.
- Tissue paper.
- A card with your brand name.

*Soft window light beats the flash.*

FIRST ORDERS

# Where to Find Your First Customers

## Friends and family

Share your creations with people you know and trust. They're often your first fans.

## Local community groups

Join neighborhood groups, parent groups or local interest communities. People love to support small businesses.

## Craft fairs and markets

Meet customers in person, showcase your work and build real connections.

## Online shop or social media

Share your story, post beautiful photos and make it easy for people to buy.

## 3 short messages to copy

"I made a small collection of bead bracelets. Would you like to see photos?"

"New this week: sets in 3 colorways. Tell me your favorite color."

"Thank you for your order! Here is how to care for your bracelet."

**Start small. Ask for feedback.**

— ACTION PLAN —

# Your 30-Day Plan

**WEEK 1**

Gather your kit and finish one bracelet

**WEEK 2**

Make 3 pieces in 1 palette and photograph them

**WEEK 3**

Set prices and list or show 6 pieces

**WEEK 4**

Share with 10 people and note the feedback

## Checklist

- [ ] Kit ready
- [ ] First bracelet done
- [ ] Photos taken
- [ ] Prices set
- [ ] First message sent

TROUBLESHOOTING

# Quick Fixes

| Problem | Fix |
| --- | --- |
| **Thread twists**  | use a shorter thread and let the needle hang to untwist. |
| **Needle will not pass through a bead**  | try a thinner needle or skip that bead.  |
| **Rows look wavy**  | adjust tension to snug and even.  |
| **Thread frays**  | use fused braided thread or a fresh length.  |
| **Crimp slips**  | squeeze in two stages with crimping pliers.    |
| **Beads look uneven**  | sort beads and avoid mixing sizes.   |

*Slow down and check tension every few rows.*

# Keep Beading

Pick one pattern, finish one piece and photograph it.
