50 BEST-SELLING PATTERNS

BONUS 1

How to use these 50 patterns

Each page shows one chart, its color legend, bead counts and a rough time estimate. Charts are drawn with row 1 at the bottom; work upward. Letters inside the beads match the legend, so the charts also work in black and white.

PICK BY STITCH

Loom: fastest for bracelets. Peyote: flexible cuffs and rings. Square stitch: earrings and pendants where you want a straight grid.

CHART REPEATS

Bracelet charts show one repeat. Repeat it until the piece reaches your wrist measurement (the guide includes a sizing chart). Earrings and pendants are single motifs.

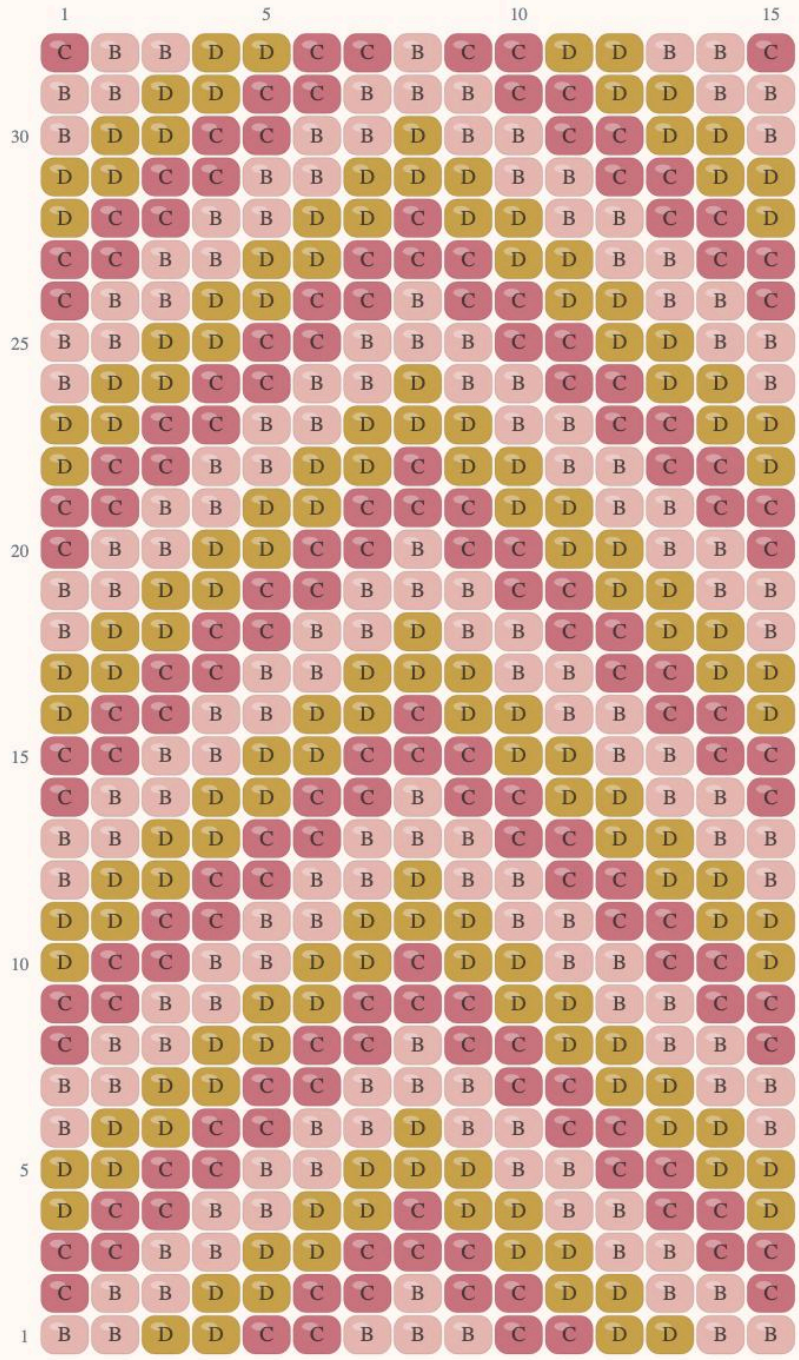

COLORS

Every pattern lists a palette with plain color names. Use the nearest bead colors you have; the Recolor ideas strip on each page shows 3 alternatives.
